

Integra LifeSciences Debuts Codman Specialty Surgical Extended Portfolio at AANS 2018

April 26, 2018

PLAINSBORO, N.J., April 26, 2018 - Integra LifeSciences Holding Corporation (Nasdaq: IART), a leading global medical technology company, will be featuring its extended Codman Specialty Surgical product portfolio at the American Association of Neurological Surgeons (AANS) Annual Scientific Meeting, April 28 - May 2, 2018, at the Ernest N. Morial Convention Center, New Orleans, LA, (booth number 430).

The company will debut the Codman Specialty Surgical Division's expanded offering that includes newly acquired Codman® Neurosurgery products and Integra's leading medical technologies.

"We are very excited to present the extensive range of our specialty neurosurgical portfolio under the Codman brand at this year's AANS conference," said Dan Reuvers, corporate vice president and president, Codman Specialty Surgical. "By combining Integra's leading technologies and well-known brands with Codman's global portfolio, we are strengthening our commitment to support neurosurgeons and their patients around the world."

Integra's Codman Specialty Surgical division will showcase several leading solutions at their booth number 430 including:

- **CUSA® Clarity: The next generation tissue ablation platform designed to quickly and safely remove tough fibrous tissue with its tough tissue technology.**
- **Codman VersaTru™:** The latest disposable bipolar forceps from Codman offering superior non-stick performance, especially in the most challenging cases.
- **DuraSeal®, DuraGen® and DuraFlex™:** A comprehensive offering of proven, market-leading dural repair solutions.
- **Advanced Monitoring and ICU Care:** Featuring the **Codman Microsensor®** ICP transducers with 3-T MRI conditional indication, advanced monitoring options including the **DirectLink®** and **ICP Express®** ICP monitors, **Licor®** PtO2 multimodal monitoring, as well as our **Bactiseal®** EVD antimicrobial catheters.
- **Codman CERTAS™ Plus:** The programmable valve designed to withstand unintended pressure-setting changes due to external magnetic influences up to and including a 3-T MRI.
- **MAYFIELD®:** The most trusted brand in cranial stabilization. **MAYFIELD®2** offers enhanced features to more precisely position the patient's head for neurosurgical procedures.

Integra also continues to support hands-on practical clinics courses at the AANS including Case-Based Management of Traumatic Brain Injury and Deep Brain Stimulator: Update and New Directions.
